SALE & PURCHASE

We have a wide network that spans the globe both in terms of direct clients and brokers to ensure that your yacht is marketed effectively and worldwide.

Your vessel will be attended to and marketed individually and not lost in the mass production as with the large brokerage houses.

When searching for that perfect yacht, we will work with you to determine the exact type of yacht that you like and ensure that it will suit your specific needs. Our team will then search the globe finding suitable vessels that match the your specific parameters and send you selection presentations for your review. Once the selection is shortlisted we will then set up viewings of the yachts you have chosen, so that together, we can find the perfect vessel for you.

After the yacht is found and an agreement has been reached, we will then assist you in pre-purchase sea-trials and surveys, handle the negotiation and closing stages of the purchase, making the purchase of your dream yacht as smooth as possible.

After the sale has been concluded, we remain at your disposal for any additional help you may need from us. Our services simplify the details of yacht ownership whether it is just the initial assistance you need to get your new yacht into operation or continued yacht management, charter management or simple shore side support.

Chartering a luxury yacht allows you to explore endless stunning destinations while having the service and amenities of a luxury villa on the sea at your disposal.
