

Whatever you need, wherever you are.

EFS offers its expertise in Food Supply, Logistics, Warehousing and Catering services and in the Construction of sites, procurement and distribution of products and turnkey projects

EBREX FOOD SERVICES

EFS is a provider of quality assured Food and Beverage Supplies, customised Logistics and Warehousing Solutions and catering services specialised in the Procurement and Distribution of Products sourced after a detailed programme of verification with full traceability. With a strong emphasis of high quality food in compliance EFS operates with US, EU and local Veterinary Certifications.

EBREX FACILITY SERVICES

EFS delivers services, products and turnkey projects in all areas where customers locate their staff. By understanding customer needs and the reality of living in remote or hostile locations EFS is able to ensure that Facilities and Services form a sound basis for customers to focus on their core competencies in the knowledge that their staff are content in their ‘home from home’ environment.

With a strong emphasis of high quality food in compliance EFS operates with US, EU and local Veterinary Certifications.

Procurement

Sourcing to specification and validation of suppliers of proteins, chilled dairy products, fresh fruit and vegetables, dry products and all types of beverages. Our process encompasses supplier selection and verification, product specification and quality control over certifications, documentation and batch numbers.

Logistics

Whether you have your own procedures or want a customised service designed EFS will meet your needs. Direct vendor deliveries to a platform at sea or freight consolidation for an airlift or need a warehouse in a remote location to store and control products when the rainy season arrives? Whether it is a regular programme or a spontaneous demand EFS has the experience and competency and proven history of delivering to exacting performance criteria anywhere and everywhere whatever the conditions.

Quality Control

Product packing, control and monitoring over shipping and transportation whether by air, sea or land and assured storage in our warehouse EFS takes care to ensure that products are in optimum condition when they arrive to our customers. This philosophy is not only part of our culture but a practical necessity as products that need to be replaced can not be quickly sourced where the supply line is long and complicated.

Catering

Do your activities result in the need to feed your staff in a remote mine or an offshore oil rig or in a hostile base? Our meals are planned, prepared and delivered to remote dining halls to exacting standards according to your requirements and budget. We understand the importance of comfort and contentment of staff who are in the field whilst appreciating the need to manage budgets.

EBREX FACILITY SERVICES

EFS delivers services, products and turnkey projects in all areas where customers locate their staff. By understanding customer needs and the reality of living in remote or hostile locations EFS is able to ensure that Facilities and Services form a sound basis for customers to focus on their core competencies in the knowledge that their staff are relaxed and content in their 'home from home' environment.

Whether it is camp services, construction of modular facilities, procurement or delivery of products or operating retail or leisure services EFS provides for your needs.

Transportation / Distribution

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Duis porttitor ultrices lacus id pretium. Vestibulum scelerisque egestas odio non lobortis. Phasellus eget consectetur nulla, id cursus neque. Cras commodo erat justo, at porttitor velit pretium vitae. Donec in erat eu mauris laoreet gravida non quis lacus. Quisque et dui eu enim pharetra egestas quis sed odio. Morbi vitae ultricies mi.

Modular Construction

EFS can project manage and supervise your programme in the field.

We do not manufacture prefabricated products so we can source and deliver precisely according to your needs in very remote places. Whether you are setting up clinics or setting up a teaching and training programme or want a pizzeria or even offices made in wood EFS has the capability of delivering your project on time, to budget and with quality assurance.

Facilities Management

We provide professional and accountable services in this interdisciplinary field devoted to the coordination of space, infrastructure, people and organization wherever your activities are located. Maintenance or janitorial services, laundry or security or pest control and including project management. We respond with multiple support expertise providing a quick response and cost-effective solution tailored to your needs.

Retail and Leisure services

Our retail and leisure facility services are tailored to meet the varied needs of the customer and their personnel. We provide a focal point where staff can relax and socialise and eat. Whether it be a gym, pizzeria, hair dresser or internet corner in a café or a corner shop EFS is ready to meet your everyday needs.

THE COMPANY

Formed in 1997 in Switzerland, EFS was the first awardee of a Prime Vendor contract by the United States Government through its agency the DLA. Since the first contract EFS has been a continuous provider of services and products to the United States Government in south and eastern Europe, north and west Africa and the middle east.

EFS has built its reputation based on innovation in meeting customers needs and delivering consistent, reliable and cost effective services and products in remote locations or under challenging conditions.

EFS stands out because of our quality assurance driven team operates to the highest ethical standards based on a transparent culture to provide a first class service whatever the challenges or conditions. All Operations are ISO 9001:2008 certified and EFS is also ANAB accredited.

Expertise in logistics and support services

Since 1998, under the Prime Vendor Contract programme, EFS has served the maritime needs of its customers to exacting standards. Whether the schedule is planned or spontaneous the needs are clearly understood. Operating to a high level of compliance of over a 98 % case fill rate EFS delivers to Naval Ships in the whole of the Mediterranean. The business is erratic - as the weekly demand of short shelf life items is unforeseeable - and requires efficient pipeline, processes and forecasting that is constantly being monitored.

Whether it is our warehouse (16 000 sqm) in Civitavecchia, Italy, located 30 meters from two quaysides (pier 24 and 25) and capable of handling two vessels simultaneously with special pallets for quick turnaround,

Our warehouse (16 000 sqm) in Civitavecchia, Italy.

CASE STUDIES

Since our original Prime Vendor contract in 1998, EFS has been successfully providing Logistical Supply Solutions in support of various military missions, including, among the most recent:

Liberia

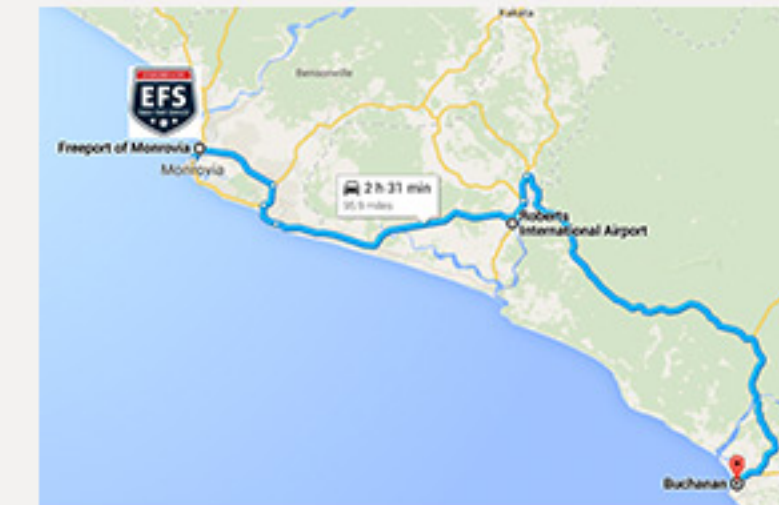

In October 2014, EFS has been requested to support the Defense Logistics Agency in Liberia, to assist during the emergency deployment due to the Ebola outbreak in the region. We mobilised within 17 days and immediately started to fly Fresh Food and Vegetables in, in order to feed up to 3,000 US Army Personnel deployed in 12 Locations throughout the region.

Notwithstanding all the challenges faced on site, we kept our usual standards high by maintaining:

- ISO 9001 Certified Food Safety Management System
- Certified Food Handlers and Trainers
- Ebola Health and Safety Procedures
- Fire Safety and First Aid
- Emergency and Evacuation Plan
- Certified Pest Control

RECEIPTS & DELIVERIES

- Received over 270,000 Dry and Frozen Cases since October 2014
- Imported over 60,000 Lbs of Fresh Fruits & Vegetables from Europe
- Delivered 130,000 Dry Cases
- 8,000 Frozen Cases delivered in closely monitored temperature controlled environment
- 139 Cases Damaged upon Receipt/Delivery - 0.05% of total volumes

Delivery Locations: Within Monrovia, Roberts International Airport and Buchanan

Warehouse located in Monrovia Free Port area

Private 24hour Security, Private EFS gated entry for 24 hour access and CCTV Monitoring System

8 Delivery Vehicles on Rotation, 4 Temperature Controlled, 2 Standby Trucks

Over 60 Employees Recruited Locally

Experienced Expat Team in Liberia
